SUNDIAL-TSL01

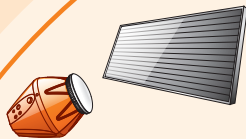

Mobile phone not included

## FOR LIGHTING

The main lamp is able to light up an area of 15 sq.m

Separated solar panel and lighting unit for easy use

Automatically turns semi-bright when battery is low

2 brightness settings for flexible use

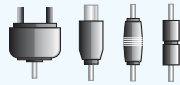

### The large potential size of the solar lighting market

There are nearly 1.6 billion people globally living in areas without grid-electricity. For light in the evening they have to burn Kerosene, candles or sometimes bio-fuels. We believe the potential market size for solar renewable lighting is nearly \$10 billion today and growing

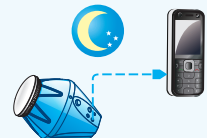

## FOR CHARGING

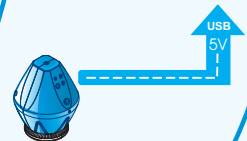

4 types of charger adapter for most mobile phones

Overcharge and discharge protection feature

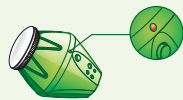

Charge mobile phones with the storage battery inside the lamp, even at night

Standard USB plugs for charging 5V digital devices

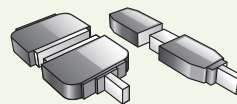

## FOR OTHERS

Charging status indicator

Press button for 8 seconds and the storage battery will go into sleep mode

Foolproof socket-pin design

### Suggested Usages

Roof light

Wall light

Desktop light

Torch
